This is in reference to your letter of March 15, 2004, concerning the aforementioned packaging material for which you have requested acceptance for use in federally registered food establishments.

Based on the available information, no objection would be taken to the use of the above packaging material for packaging chilled seafood.

This acceptance is not to be misconstrued as an endorsement for this or similar packaging material, and their use in Registered Establishments will depend upon their continued acceptability to all concerned.

Should any changes occur in the chemical formulation of the aforementioned packaging material, then this acceptance will be considered NULL and VOID.

Yours truly,
